Frequently Asked Questions

Do You Offer Partial Planning?

No, we do not offer partial planning. To ensure every couple receives our undivided attention and an elevated experience, we intentionally limit our calendar to 10–12 full planning weddings per year and only book one wedding per weekend. Focusing exclusively on Full-Service Planning and Coordination allows us to maintain seamless logistics, protect your design vision, and deliver a completely stress-free experience.

Can I Have Wedding Management Only at a DIY Venue?

No, DIY and private-property venues require our full-service planning package. Blank-canvas spaces involve complex logistics, earlier operational groundwork, and larger setup teams to successfully execute the ambitious, custom visions our couples dream up.

What's Our Favorite Kind of Wedding?

We love weddings where the couple leaves behind social media trends and "should-dos" to focus on what matters most: throwing an incredible party. Whatever fun means to you, that's exactly the kind of celebration we love to plan!

About Me!

Hi! I'm Merida, Head Nerd-in-Charge of- you guessed it- Events By Merida.

I believe weddings should be, above all else, fun. It's a celebration of your unique story with your favorite people, and there are zero rules you have to follow.

After seeing a lack of representation for couples who didn't fit the traditional mold, I launched my own company in 2016 to change that. Now, we're a badass, award-winning, Equally Wed certified team dedicated to creating intentional celebrations for everyone.

In my off time, I'm usually hanging out in my library, visiting a museum, or getting lost in a sci-fi/fantasy series (with a healthy dose of Nailed It! mixed in).
